MINJEONG KIM (Amy Kim)

Apparel Designer / 3D Design Specialist

oopskmj118@gmail.com

Career Objective

Apparel designer with over 10 years of experience in fashion design, design R&D, and 3D development for global brands. Experienced in translating brand guidelines and seasonal trends into commercial collections, collaborating with overseas buyers and vendors, and using 3D digital tools to reduce lead time and cost. With experience co-creating collections for global brands and accelerating development in 3D, I am eager to expand into licensed apparel design at Fanatics.

Core Skills

- Graphic Tool : Adobe Photoshop, Illustrator
- 3D Garment Development : CLO, Browzwear
- 3D Software Training & Workflow Support
- Team & Project Management
- Global Client Communication
- Video Editing : Adobe Premiere Pro

Work Experience

2019 - recent
Sae-a Trading

Assistant Manager / Virtual Technical Designer

- Create 3D garment to streamline the seasonal production process, reducing lead time and cost from development to final production.
- Participate in buyer meetings on 3D capabilities, development workflows, and direct-to-3D design to align project requirements and expectations.
- Manage team schedules, workloads, and capacity across multiple buyer accounts, ensuring consistent quality through standardized guidelines and ongoing feedback.
- Develop and deliver 3D software training for cross-functional departments and overseas team, including extended on-site training to support team expansion and the handover of buyer-specific workflow.

2017 - 2019
Hansoll Textile

Designer / Design R&D

- Collaborated with major clients such as Target, JCPenney, Express, and Kohl’s in co-creation projects, aligning designs with their brand strategies and consumer needs.
- Conducted in-depth research on seasonal trends, generating market intelligence reports to guide design direction and innovation.
- Organized and led seasonal design forums and innovation meetings to present new concept and solutions.
- Developed 3D samples to streamline the prototyping process, ensuring quick turnaround and high-quality output for client presentations.

2014 - 2017
MGF Sourcing Korea

Assistant Designer / Design R&D

- Collaborated with client such as Express and Belk in co-creation projects.
- Supported the sampling process, ensuring the timely development of prototypes for client review and approval.
- Played a key role in developing embellishment designs artworks.

2011 - 2012
Wicked Fashion
South Pole, NJ

Intern / Technical Design

- Assisted designers throughout the design process, including sampling, creating tech packs, presentation CADs, and line sheets to support product development.
